

Wooster Community Hospital

has been recognized again by Cleverley & Associates as a Community Value Five-Star hospital.

This recognition is the Hospital's 6th year in a row and 7th out of the last 8 years. The Community Value Index (CVI) was created by Cleverley & Associates as a means of assessing the value that a hospital provides to its community, when it is financially viable, is appropriately reinvesting back into the facility, maintains a low cost structure, has reasonable charges and provides high quality care to patients.

The CVI is composed of ten measures that assess a hospital's performance in the following four areas:

- ▶ Financial viability and plant reinvestment
- ▶ Hospital cost structure
- ▶ Hospital charge structure
- ▶ Hospital quality performance

Each area contains metrics that compare a hospital's performance to an appropriate peer group. The combined performance in each area is the CVI score. Those hospitals with scores in the top 20% are designated as a Community Value Index Five-Star facility.

This distinction is an honor, and we are proud to have been awarded this recognition.
